TIFC. P. HATGHEY, Fres't. E. E. REXFORD, Cash MONEY, STOCKS AND GRAIN

Tendency to Duliness Intensified by the Decision of Chancellor McGill.

Much Interest in New York Centered in the Movement in Sugar-At Indianapolis Wheat Becomes Listless-Other Grain Dull.

THE BOND MARKET.

Transactions in Railroad Issues Again Confined to Narrow Limits.

At New York, yesterday, money on call was easy at 14@2 per cent., the last loan being made at 142, closing offered at 2. Prime mercantile paper, 4@51/2 per cent.

Sterling exchange was quiet and easy at \$4.864 for sixty-day bills and \$4.87% for de-

The total sales of stocks were 256,801 shares, including the following: Atchison, 7.900; Chicago Gas, 5,200; Delaware, Lackawana & Western, 4,300; Erie, 5,000; Louisville & Nashville, 4,200; Missouri Pacific. 3, f00; New England, 15,200; Reading. 6,800; Richmond & West Point, 9,815; St. Paul, 6,500; Western Union, 3,900,

The principal effects of the decision by

Chancellor McGill were to intensify the tendency to dullness in the general list, and to increase the movement to cover shorts in all portions of the list. There was considerable excitement in the Reading crowd at the opening, but when it became evident that the insiders were disposed to support the stock against any possible pressure the stock became quiet. the other coalers were apparently scarcely affected by the decision at all, and remained extremely dull throughout th day. The rest of the interest in the market was centered in Sugar. which the transactions were again extremely large, while the price was let off rapidly during the forenoon near 3 per cent., with no material improvement in the later dealings. The others sympathized with the decline, but only General Electric made any marked The lowest prices of the day were reached in many stocks at the close, which was

first figures. . The transactions in bonds were again confined to parrow limits and the changes unimportant as a rule. The Readings were both active and weak, and while the firsts furnished \$100,000 out of a total of \$871.000, it lost 11/2 per cent. at 961/2, and the convertibles 14, at 644. There were no other osses of note.

quiet, but heavy, generally within a shade

Government and State bonds were dull and steady. Closing quotations were: Four per cent. reg. 115¹₂ Louis. & Nash.... 68³e Four per ct. coup. 115¹₂ L. & New Albany.. 25¹₄ Pacific 6's of '95. 107 Missouri Pacific... 61³s

Bar Silver - At New York, 83c per punce; at London, 384d. The following table, compiled by Bradstreet's, gives the clearing-house returns for the cities named for the week ending Aug. 25, 1892, and the percentage of increase or decrease, as compared with the corresponding week of last year:

New York \$572,536,614 Increase:. 4.1 oston..... 80.938.490 Increase .. 5.2 Chicago..... Philadelphia.... 94,913,330 Increase .. 15.8 67,616,180 Inerease .. 15.6 t. Louis..... 20,791,298 Decrease.. 4.6 Baltmuore..... Decrease ... 13,359,303 11,193,500 Increase ... 5.9 13,933,597 Increase ... 18.2 Cincinnati Indianapolis.... 4,109,378 Increase ... 22.1

The total clearings in the United States last week amounted to \$1,008,610,887, an increase over the same time last year of 6.7 per cent. Excluding the city of New York the clearings were \$436,074,273, an increase of 9.8 per cent.

GRAIN AN PRODUCE.

Few Changes in Quotations, with Little Prospect for Much Improvement. Trade, as usual as the month nears its close, is moderate and largely in the way of replenishing broken stocks. Coffees and sugars continue very firm, and a belief prevails with the wholesale grocers that coffees are to go still higher. The hide market is rather tame. A slight change in quotations on G. S. hides will be noticed. Most erticles in the produce and fruit line are unchanged. Receipts of apples large; prices weak. Receipts of peaches are fair and

continues tame and uninteresting, with little prospects of an early improvement so heavy are receipts of all cereals. Track bids on the several cereals ruled as follows: PULLTRY AND OTHER PRODUCE. Poultry-Hens, 9c P 15; young chickens, 90 P lb; turkeys, fat, choice bens, 10c To, and 9c for fancy young toms; ducks,

1 1h; geese, 84.80 for choice. Eggs-Shippers paying 13c. Butter-Choice country grass butter, 12@ 15c; common, 8@10c; creamery retailing from store at 25c.

Only \$3.75 to Chicago

ON THE VERGE OF A PANIC

Pork More Demoralized and Grain Influenced by the Cholera Scare.

Wheat Worked Up 1/2c on the Start, but Tumbled Later and Close i 1/4c Under Thursday's Figures, at 75 1/4c and Weaker.

TRADING AT CHICAGO.

Pork Opened 35c Lower, Recovering 20c Before the Close.

CHICAGO, Aug. 26 .- The grave aspect of the situation as regards cholera in eastern Europe, as shown by the dispatches published this morning, demoralized the markets on the Board of Trade, especially the hog meats. Yesterday the stories in regard to it were regarded with some caution. Today, however, the published reports concerning the spread of the epidemic abroad and the talk of quarantine, caused traders to take a gloomy view of the future. Receipts of wheat continue in good volume, notwithstanding reports freely circulated that they were sure to decrease greatly. At the start Logan, Schwartz-Dupee, Norton-Worthington and other prominent houses, with the scalping element, were free sellers, and the first sales showed 40 be decline. Dunn. Brant. Walker, Cutler and McDongal were good buyers on the break, most of it being understood to be in the way of covering shorts, and there was some recovery, but at no time did the market show much strength. The bears, who have all along contended that the situation was weak, considering the crops at home and abroad, and the large surplus carried over, now feel that, since the cholera has added its weight, there can be no doubt of the correctness of their position, and are steadily increasing their short lines. Many former bulls are showing discouragement, and are unloading freely, as the market cannot take their holding. Of course, there is more or less bull sentiment yet, but it is feebly hesitating and cautions, and consequently without much influence. After the market had worked up about 12c under buying for investment by representative operators, who were inclined to the opinion that the cholera danger had been overstated, and that the price was at a safe point, the news that cholera had reached England, coupled with reports from Northwestern States that the spring wheat crop was deficient in quantity and in flour-producing qualities, caused a down turn again. Sales of September around the opening were made at 75 4 c and 75c, against 75 2c at the close yesterday. The price worked its way up, with some slight reactions, to 75 so, reacted and closed weak at 75 c. and before noon had fallen 1 se on September from yesterday's close. The cholera scare, the weakness in wheat and the de-

Corn was weak almost from the start, moralization in provisions were the depressing factors. Congdon, Schwartz-Dupee and Baldwin-Farnum were big sellers. Congdon, who has been a bull until recently, led the raid, and now predicts lower prices. Some prominent longs liquidated freely, and there was little demand except to cover shorts and secure profits. Purchases by the latter, together with an upturn in provisions, caused a rally later, but the advance was no all at 51%c, with a possible sale at 51%c and

Oats were slow and easier, largely in

with a loss of 'sc. Hog products were again demoralized. Receipts of live bogs were much larger than expected, with the market at the vards demoralized and 20@25c lower. Holders of products were pressing sales, and low prices ruled at the start. But covering by shorts to secure profits and good buying by Cudahy and Charley Wright started prices up some. September pork opened 35c lower, at \$10.20, remained weak for some time, then advanced to \$10.50 and closed at \$10.40. Lard was very weak early on the liquidating sales and stop-loss orders, but soon regained the lost ground, closing .05c higher than yesterday. Ribs were affeeted much the same as pork and lard,

and closed with a loss of .1240 for Septem-Lake freights were steady at 2c for corn to Buffalo. Estimated receipts for to-morrow are: Wheat, 590 cars; corn, 410 cars; oats, 300 cars; hogs, 15,000. The leading

Details of the Accident That Resulted in the Killing of a Female Aeronaut.

DETROIT, Aug. 25 .- An accident occurred at the exposition grounds that will not soon be forgotten by the hundreds of people assembled there this evening. It was the killing of Gertie Carmo, the daring female aeronaut, who succeeded Hogan, who was killed on the same spot last year. For several days the weather had been such that it was impossible to make an ascension safely. This evening Miss Carmo was determined to go up. notwithstanding and others that it would be unsafe. She pleaded professional pride and said she would go up, no matter what the result might be. It was almost dark and a strong wind was blowing when the balloop arose, with Miss Carmo hanging to the trapeze-bar. Before the immense bag could clear the exposition building it struck a projection of the high tower and hurled Miss Carmo to the ground. She fell three hundred feet, and her death was instantaneous. Very few people saw the aeronaut fall, as the exposition building was between them and the object of their view. An examinaskull, right thigh and left arm were fractured. Her skell at the base was broken completely from one side to the other. When the aceident occurred Robert Scammer, her assistant, fainted, as did several women in the throng of sight-seers. Scammer had paid the dead girl considerable attention and was much attached to her. A sister living in this city, when apprised of the death of Miss Carmo, was prostrated. The parents of the dead girl, who are on the way home from Germany, will arrive in

their daughter's death will be a sad welcome for them. Fell 500 Feet and Was Not Killed. STAUNTON, Va., Aug. 26.-H. L. Williams. of Michigan, had a fall of five hundred feet last evening from a balloon. He ascended from the fair grounds, and was to descend in a parachute. The parachute was wet from a hard rain and would not open. Williams came down like an arrow. He was picked up unconscious, but is now thought to be out of danger.

New York next Saturday, and the news of

DUN & CO.'S WEEKLY REVIEW

With Cessation of Labor Troubles, General Business Prospects Brighter.

Moderate Exports and Better Crop Reports

Lead to Lower Prices in Grain-Cholera

Assists Traders to Bear Provisions.

NEW YORK, Aug. 26 .- R. G. Dun & Co.'s weekly review of trade says: In all aspects the business situation appears more favorable than a week ago. There has been a general though moderate improvement in distribution. Manufacturers are more fully employed, several great labor controversies have ended and crop reports are somewhat more satisfactory. A little more gold has gone abroad and imports of merchandise are still enormousfor three weeks at New York 481/2 per cent. larger than for the same week last year, In exports from New York the increase for three weeks is only about 41/2 per cent., but the shipments last year were phenomenal, and it is encouraging that they are not diminished. Excess of imports over exports continues later in the season than usual, but money markets are so well supplied that some outgo of gold causes no disturbance or apprehension Moderate exports and better crop reports lead to lower prices. Wheat receipts at the West on four days of this week have been 5,259,598 bushels, while the Atlantic experie have been only 1,574,638 bushels and the price has declined 2e to 80% o for August The certainty that foreign crops, however, in doubt as yet, will, at all events, be much better than those of last year, helps large receipts here to depress prices. Corn is scarce for early delivery and crop prospects improve but little, so that the price is unchanged at 6312c. Oats are a shade stronger at 39c. Accounts of cholers in Russia have caused heavy unloading of pork which has fallen \$1 per barrel and hogs are 4c and clined a fraction. Cotton is further depressed to 71se by the great accumulation of upsold stocks and better reports of the coming crop, but while in other speculative market sales have been small for the week,

those of cotton reached 505,000 bales. Boston reports more active trade for the boot and shoe shops; very busy, with encouraging orders from the West and better Southern collections. Dry goods are active and textile mills worked nearly to their full capacity, the clothing demand for woolens surprising the producers and taxing them to the utmost. Trade in oils is more encouraging, but in chemicals steady with slow collections, and in paints and liquors quiet. At Pittsburg raw iron is slightly weaker, though some of the works have not yet finished repairs, and the window-glass-works will not all be in operation till the end of September. Trade at Cleveland is good, with better demand for money, and at Cincinnati the hardware trade is 10 per cent. better than a year ago, and in paper and paper bags much better, with general trade fair and collections good. Business at Detroit is in some lines larger and in all equal to the last year's, with collections very fair.

Chicago reports trade better than a year

ago, with favoring crop reports, an increase of 20 per cent. in receipts of cattle, 25 in oats, 33 in cured meats and 66 per cent. in flour, compared with last year, but some decrease in other articles. Needed rains have greatly helped crops in Wisconsin, and manufacturers at Milwaukee are all busy. The trade is stronger at St. Louis, with grain receipts very large, and s!! roads troubled by a car famine. At Kansas City there is healthy activity, with receipte of cattle liberal. At Omaha orders for dry goods and groceries are heavy, and at Lincoln trade is healthy, with good collec-tions. At St. Paul business is brisk, with good crop reports, and at Minneapolis the lumber trade is especially strong and the flour output 202,000 barrels, against 185,000 lastyear. Denver reports satisfactory trade and good collections. Some improvement is noted at all Southern cities reporting, and trade at Nashville is very fair; increasing, with brighter prospects, at Memphis, and in all lines gaining at New Orleans, with a better demand for money. All manufactures are doing well. Nearly all of the iron-mills have resumed work since the settlement of wages in Pittsburg and in Ohio, and demands for the material increase, but production has apparently increased more as pig-iron is weaker at Pittsburg. There is a better demand for finished products. Copper and tin are steady, and lead has a firmer look. The injunction in New Jersey against the Reading coal combination as unlawful came on the same day with another advance in prices, and since the leases were made, prices have advanced about \$1 per ton on the average, The woolen manufacturer is crowded with work, and sales of heavy-weights of the season are thought to have been never exceeded. More life is seen in cottons, with decided improvement in South American demand, and prints cloth are strong, production. Hosiery is quiet, but very active, and the carpet trade good, with prices on the whole as low as ever. Sales of woel at the chief markets have been large for the week, but as stocks are very beavy, sellers are somewhat more free The boot and shoe trade is in volume greater than ever, though competition from new works is sharp.

The business failures occurring throughout the country during the last seven days number for the United States, 165, and Canada 15, or a total of 180. For the corresponding week of last year the figures were 226, representing 204 failures in the United States and 22 in the Dominion or Canada.

REAL-ESTATE TRANSFERS.

Fifteen Transfers, with a Total Consideration of \$13,076.

Instruments filed for record in the recorder's office of Marion county, Indiana, for the twenty-four hours ending at 5 P. M., Aug. 26, 1892, as furnished by Elliott & Butler, abstracters of titles, Hartford Block, No. 84 East Market
